

I am writing in response to information that I received regarding your proposed expansion of the LPFM service. Advocates of this service apparently feel that their views should override the desire of thousands of people across the United States to have the freedom to listen to current FM stations. K-LOVE is one of the stations that broadcast Christian music and commentary across the United States. K-Love provides a valuable service to the community in providing a positive and uplifting message to millions of people. Should the LPFM service be expanded, this would displace K-LOVE and leave little or no room in the broadcasting community for a message of peace and hope in a world that is in such turmoil. K-Love has been an integral part of my life for the past 2 years and has provided reliable, motivational, Christian programming. As a parent, I value a station that is sensitive to the needs of families and children. K-Love encourages strong family values and provide a safe, appropriate message for our children. This is an invaluable service to any community and should be protected and maintained at any cost.

Thank you.
